

I am a satellite subscriber living in Vt, on the border NH.

Your significantly viewed list for Vermont is very incomplete.

Because Vt is such a small & narrow state, local cable companies have always carried many stations out of NH, MA, NY & ME yet the only stations you list are WCAX & WMTW. That doesn't even include most of the Vt affiliates.

Please add:

WBZ, channel 4, Boston, MA

WMUR channel 9, Manchester, NH

WHDH channel 7, Boston, MA

WFXT channel 25, Boston, MA

WCVB channel 5, Boston, MA

WLVI channel 56, Boston, MA
